

WESTERN DISTRICT.

(SPECIAL BY "PACE.")

Premier events have ere now been engaged in under conditions the reverse of favourable so far as mud and weather were concerned, and the last notable instance was that of the International C.C. race at Hamilton, run in March of last year. Saturday, however, was even more desperate than that occasion. To begin with, the ground by reason of recent rains was heavy enough in all conscience, but the lashing, pelting rains that fell previous to the start of the race, and which continued all through, was dispiriting in the extreme, and heavy on those fighting for district honours. Very complete arrangements had been made by Secretary Roxburgh and his committee, and so far there was not one detail left to be desired. Trail layers, trail, dressing accommodation, officials, were all anticipated and provided for, and but for the very unpropitious atmospherical conditions everyone in charge would now be shaking hands with himself.

It is exactly ten years since the junior running barriers clubs of Glasgow and district formulated the idea of a race in which they might all take part independent of the body that ruled at that time. The event was a pronounced success, and was run at Cathcart with an entry of seven clubs—the Bellahouston, Carlisle Beagles (since lapsed), Clydesdale Juniors (now the Olympic), Elderslie Wallace (also extinct), Springburn, Strathblane (only a club in name now), and Whiteinch Harriers clubs. From that beginning sprang the W.D.C.C. Association, and year by year this body increased in power and usefulness under the fostering care of such well-known enthusiasts as Messrs Alex. Honeyman, A. McNab, J. Yonston, Jas. Walker, and although last to be named, the hardest worker of the lot, Mr W. A. McCaa, now president of the one leading body for C.C. legislation in Scotland. In 1901 the senior and W.D. bodies merged into one, and since then the race has been run under its care, and the event is a continuation of the junior championship and that of the Western District.

As on previous occasions, the event of this year was arranged to take place over the well-known country starting from the Race Course on the Hamilton Palace policies. Nineteen clubs entered, which was just one within the record of a year ago. The principal absentees of Saturday were the Whiteinch and Larkhall. There were, however, representatives from the recently-formed Greenock Auchmountain Harriers, and the other clubs entered are well-known in C.C. circles and athletic meetings generally, and, looking over the individual names, one could not but be impressed with the importance of the race by reason of so many well-known track-racing men.

Thirty-five minutes after the advertised time, the nineteen bands were lined up in front of the grand stand. Some were minus their most promising men, but others ran their full teams as entered, among those being Auchmountain, Bellahouston, Dennistoun, Garscube, Motherwell Y.M.C.A., and Paisley Juniors. Immediately before lining up, the rain and wind did their worst, and the send-off was seen, as a rule, from under cover.

Once away, the leaders made no mincing of matters, but set the pace, and by the time the first mile had been covered there was a tailing off that covered quite 500 yards, and the bookie's voice shouted 2 to 1 agst Kennedy and Russell, and 4 to 1 bar a couple. These two were first to run out to the open, and at this juncture quite twenty of the runners cried enough, and made tracks to their dressing quarters. Russell was in time shaken off by Kennedy, and the Garscube runner was challenged by more than one of the Motherwell men. Nearing the finish of the contest M'Murdo stuck to the leader, and the pair in their emulation and determination eased away from the others. The Motherwell runner made great efforts, and could not be shaken off, and great were the cries of the onlookers as this pair ran round the last bit of the journey. The dash was a great one, and both ran through the wicket within less than ten yards of each other. Then as fast as the stewards and judges could call the numbers of the mud-bespattered heroes they came rushing in close after one another, and altogether no fewer than 155 finished and were placed in the order as appended. The order of arrivals were as follows, but it must be understood that by reason of one or two slips and one disqualification some of the numbers are somewhat off:—1. Sam Kennedy, Garscube (champion); 2. W. M'Murdo, Motherwell; 3. W. Cochrane, Olympic; 4. Theo. Young, Motherwell; 5. J. Jackson, Burnbank; 6. D. M'Cafferty, Burnbank; 7. Geo.
